Control options MotionMount

1. **AUTOMATIC Movement**

Default your TV moves to last position or to your favorite position when switching on your TV. TV will return to wall position when switching off the TV (triggered by HDMI-CEC)

2. **Voice control**

Move your TV to one of the presets by voice (based on Siri Shortcuts – Apple only)

3. **MotionMount App (iOS / Android)**

For onboarding, moving your TV to a position, to store presets and some more functionality

4. **Remote control (infrared included)**

For moving your TV to a position and to store presets

1. AUTOMATIC Movement

- By default, your TV moves to the last position or to your favorite position when switching on your TV. When switching off the TV, it returns to wall position (triggered by HDMI-CEC)
- Connect MotionMount with TV by means of HDMI cable:
 - In case of TV set with HDMI connectors at the back of the TV: use the by packed 2m HDMI cable
 - In case of TV set with 'Connect box' (like the Samsung One Connect Box): Use the additional 4,5m HDMI cable which can be ordered at Vogel's (adaptor kit 999985)
- Make sure HDMI-CEC is switched on in the settings menu of your TV.

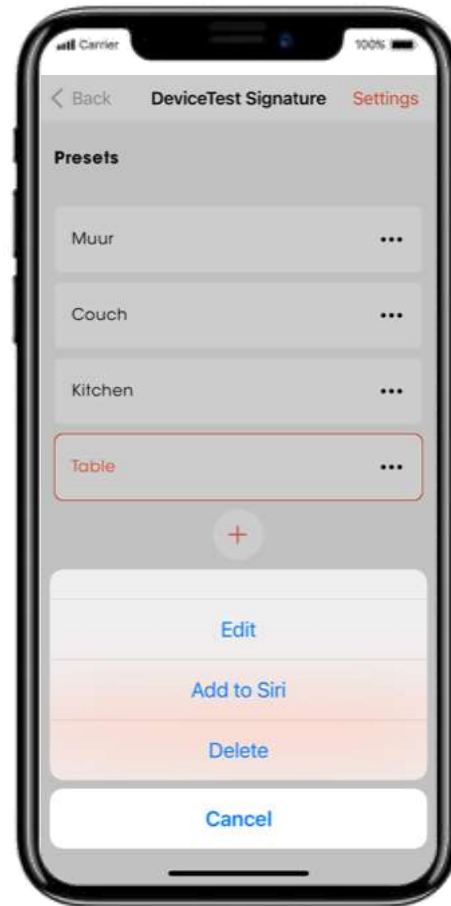

Note that HDMI-CEC feature naming is different per TV brand:

- | | |
|---------------------------------|---|
| ▪ Samsung: AnyNet+ | ▪ Phillips: EasyLink |
| ▪ Sharp: Aquos Link | ▪ JVC: EZ-Sync |
| ▪ Sony: BRAVIA Link/BRAVIA Sync | ▪ Panasonic: HDAVI Control/EZ-Sync/VIERA Link |
| ▪ Toshiba: CE-Link/Regza Link | ▪ Mitsubishi: Netcommand |
| ▪ LG: SimpLink | |
| ▪ Loewe: Digital Link HD | |

2. Voice control

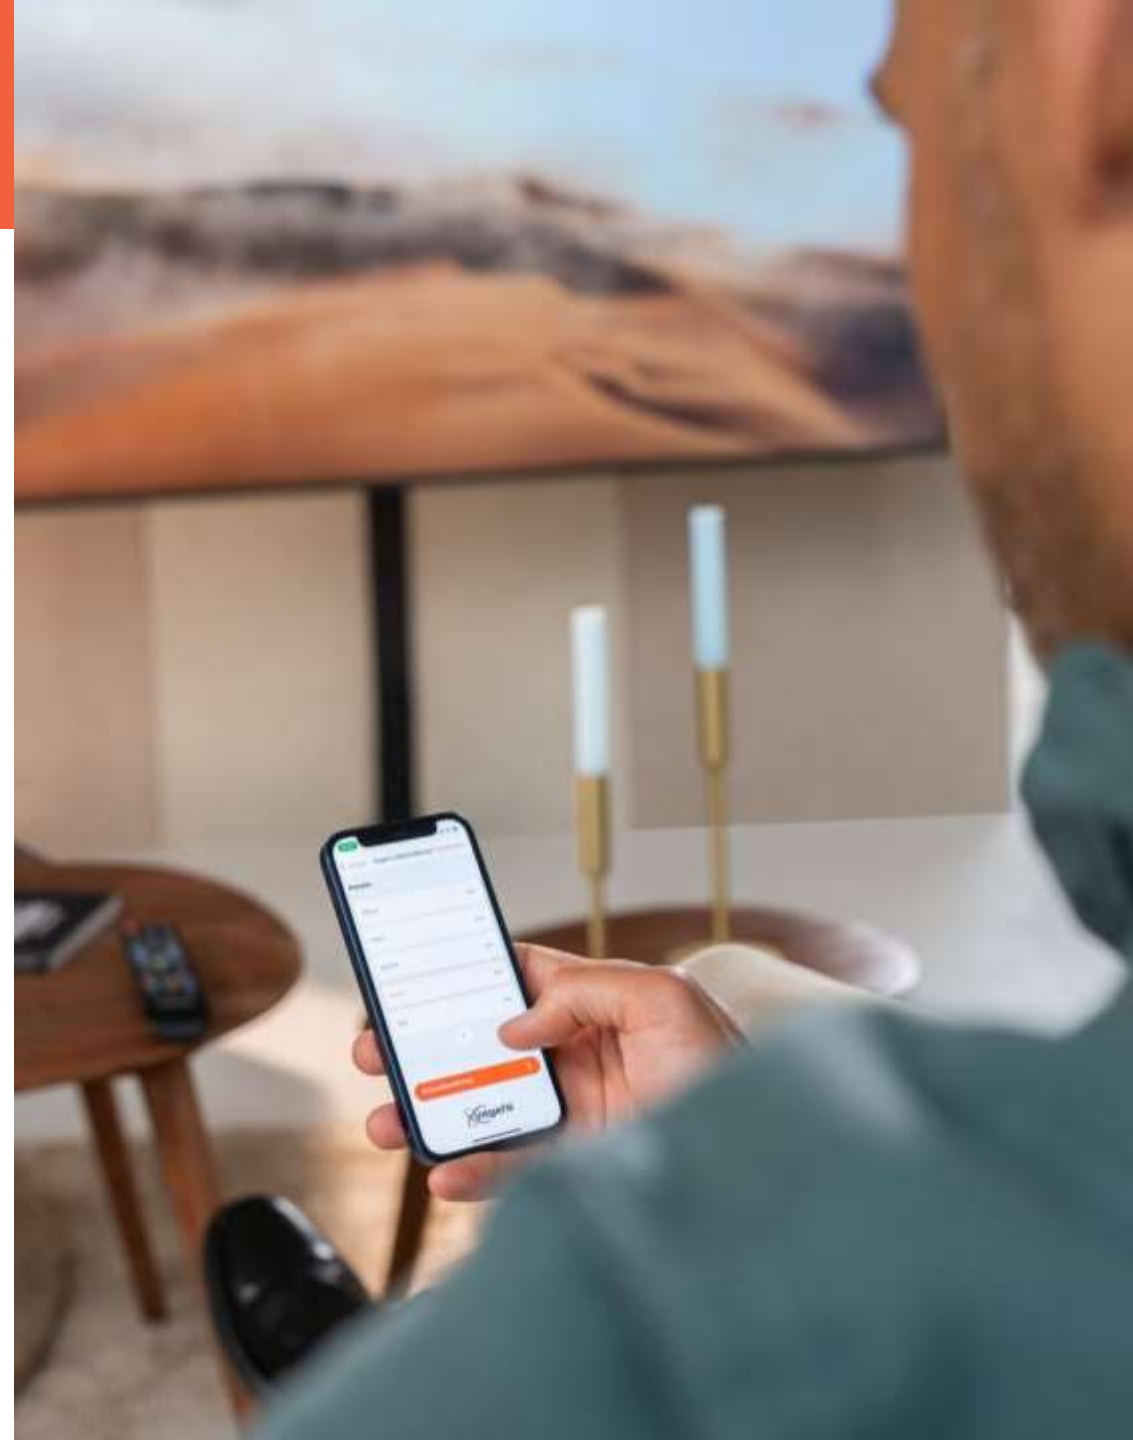

- Move your TV to one of the presets by voice (based on Siri Shortcuts – Apple only)

3. MotionMount App

- For onboarding, moving your TV to a position, to store presets and some more functionality
- Dark mode included
- Available in 8 languages
English, Dutch, German, French, Spanish, Portuguese, Danish, Simplified Chinese
- MotionMount is equipped with Bluetooth 5.0
- Free app available in App Store (iOS) and Google Play (Android)
Device hardware / OS-software requirements *:
 - Apple iOS 13 and newer / iPhone 6S and newer
 - Apple iPadOS 13 and newer / iPad Pro, iPad Air 2 and newer, iPad mini 2019, iPad mini 4, 9.7-inch iPad 2017 and newer
 - Android OS 9.0 and newer

*) Note: Only the latest iOS and Android OS versions are actively supported and tested by Vogel's

3. MotionMount App

Information

4. Infrared remote control

- To position your TV and to store presets
- A position can be stored by pushing one of the 7 preset buttons (P1 – P7) for at least 5 seconds
 - Presets will also become visible in MotionMount App
 - Presets can also be stored via the MotionMount App
- Connect the infrared receiver ('infrared eye') to the mini-jack connector at the right side (in the wall plate of the MotionMount)
- Position the infrared receiver in such a way that remote control signals can reach the receiver (direct and/or by reflections)

Controlling the TVM 7675 PRO MotionMount

- RS-232
- Ethernet protocol (TCP / IP)
- System integrators / Control system drivers under development:
 - Control4
 - Crestron
 - Crestron Home
- Home Assistant (open source platform)
