

MODULAR LCD/PLASMA

LCD/PLASMA WALL SUPPORT

PFW 930

The PFW 930 is a LCD/Plasma wall support with turn & tilt function (180° turn, 15° tilt) to mount 23"-65" LCD/Plasma TV's to the wall (up to 70 kg).

NOT including interface FAU 3150 or FAU 3125.

The PFW 930 LCD/Plasma wall support is part of a modular system which enables you to create your own wall mounting solution for LCD/Plasma TVs.

Just add the needed universal LCD/Plasma interface (FAU 3150/3125), depending on the display.

The Autolock[®] locking system locks the interface onto the support and prevents the display from falling of the turn&tilt unit when accidentally lifted. The optional lock PFA 9008 blocks the locking system, hence preventing theft.

- Autolock[®] locking system
- NOT INCLUDING interface FAU 3125 or FAU 3150
- Tilt mechanism with virtual pivot
- With turn & tilt function

 **MAX. 70 kg 155 lbs**
