

# MODULAR LCD/PLASMA

## RIGHT-ANGLED LCD/PLASMA WALL SUPPORT BACK-TO-BACK

### PFW 952

The PFW 952 right-angled LCD/Plasma ceiling support back-to-back features a wall mounting plate with a 72cm arm and turn & tilt unit. **NOT including 2 interfaces FAU 3150 or FAU 3125. Suitable for displays up to 42".**

- With stylish wall cover

The PFW 952 right-angled LCD/Plasma ceiling support back-to-back is part of a modular system which enables you to create your own wall mounting solution for 2 LCD/Plasma TV's up to 60 kg.

Just add the needed 2 universal LCD/Plasma interfaces (FAU 3150/3125), depending on the display.

The Autolock<sup>®</sup> locking system locks the interface onto the support and prevents the display from falling of the turn&tilt unit when accidentally lifted. The optional lock PFA 9008 blocks the locking system, hence preventing theft.

This support is especially applicable in hall ways or in corners, if the connecting wall is not suitable for mounting.

- Autolock<sup>®</sup> locking system
- NOT INCLUDING (2x) interface FAU 3125 or FAU 3150
- Specially designed for passageways, halls, lecture theatres etc.

 **MAX. 60 kg 133 lbs**
