LCD/PLASMA - MODULAR LCD/PLASMA

UNIVERSAL LCD/PLASMA INTERFACE, VESA MIS-F [COPY]

FAU 3150

The FAU 3150 universal LCD/Plasma interface can be used to mount a LCD/Plasma TV (with VESA MIS-F) to the wall, ceiling or floor (in combination with other modular parts).

The FAU 3150 universal LCD/Plasma interface is part of a modular system which enables you to create your own wall, ceiling or floor mounting solution for LCD/Plasma TVs (30-65", with VESA MIS-F, up to 70 kg). The Autolock® locking system locks the interface onto the support and prevents the display from falling of the turn & tilt unit when accidentally lifted. The optional lock PFA 9008 blocks the locking system, hence preventing theft.

For wall mounting just add the needed wall mounting plate (PFW 910/920/930) or support (PFW 950/952).
For ceiling mounting add the needed ceiling mounting plate, extension tube and turn & tilt unit.
In case of floor mounting add floor stand PFA9011 and the needed turn & tilt unit.

- Autolock® locking system
- Horizontal and vertical mounting

- Optional anti-theft lock PFA 9008
- VESA MIS-D-E possible
- VESA MIS-F (max. 920x512 mm)

 26" - 65" 66 - 165 cm

 MAX. 70 kg 155 lbs
