

PPL 1070 Projector ceiling lift system

The new PPL 1070 ceiling lift system is the perfect solution for integrating projectors into ceilings in board rooms, home cinemas, auditoriums and conference halls. Not only is the projector neatly hidden, it is also theft delaying.

The lifts run whisper quiet and offer two very easy and accurate adjustable positions: top and show.

PPL 1070 Projector ceiling lift system

Having an adjustable top position has the advantage that the ceiling finishing kit can be perfectly aligned. And in some cases it is not needed to create a construction to fill up the internal spacing between structural and false ceiling. The movement of the PPL lift systems is done by a very reliable, accurate motor that moves the lift with an accuracy less than one millimeter.

Features

- Adjustable height
- Cover included for false ceilings
- Fine tune adjustability
- For Small-Medium size projectors
- Whisper-quiet operation
