

MODULAR LCD/PLASMA - MODULAR PROJECTOR

EXTENSION TUBE 150CM

PFA 9003

The PFA 9003 150cm extension tube can be used to mount LCD/Plasma TV's and/or projectors to the ceiling (in combination with other modular parts).

The PFA 9003 150cm extension tube (with an external diameter of 60mm) is part of a modular system which enables you to create your own ceiling mounting solution for LCD/Plasma TV's and/or projectors.

You can easily insert and attach this extension tube to one of the ceiling mounting plates (PFA 9005/9019/9020) or the truss adapter (PFA 9009). As a next step you can attach one or more turn & tilt units (PFA 9001/9002/9012) or a projector interface (VPC 545, PPC 200).

The PFA 9003 contains the fast CIS[®] Cable Inlay System, which enables you to hide all the cables in a matter of seconds. Since it's made of aluminium, the tube can easily be cut to length if necessary.

- Aluminium, easy to cut to length
- Fast CIS[®] Cable Inlay System

 **MAX. 60 kg 133 lbs**
