## LOCK SET

### PFA 9008

**The PFA 9008 lock set is suitable for the universal LCD/Plasma interfaces FAU 3125 and FAU 3150.**

The PFA 9008 lock set can be used when anti-theft solutions are required. When the lock is used it's not possible to dislock the Autolock<sup>®</sup> locking system, unabling potential thieves to take the display off the support.

- Lock for interfaces FAU 3125 and 3150
